CLEC RATE SCHEDULE COVER SHEET

1. General Information

Federal Identification Number 38-3532242
Dkt. 02-120, Order
CLEC Authorization Number 24,062 OR Date of Application _____
Legal Name BullsEye Telecom, Inc.
Trade Name (d/b/a)
in New Hampshire N/A
Regulatory Contact David Bailey, Vice President of Corporate Development
Complete Mailing Address 25925 Telegraph Road, Suite 210
Southfield, MI 48033
Phone Number 248-784-2500
Fax Number 248-784-2501
E-mail Address dbailey@bullseyetelecom.com

2. Attachments

Attach rate sheets, and include

- The name of the service as appears on customer bills;
- The name of the service as appears on company provisioning documents;
- A brief description of service;
- The price at which the service is offered; and
- The date on which the price is effective.

Any rate schedule of more than ten pages shall include a table of contents and numbered pages.

3. Signature

I certify that the information on this form is true and correct to the best of my knowledge and belief subject to the penalty for making unsworn false statements under RSA 641:3.

Authorized Representative Signature _____ Title Consultant
Printed Name Connie Wightman Date 06/27/2013

If you have any questions, please call the New Hampshire Public Utilities Commission at 603-271-2431.
Please mail any documents to the above address.

CHECK SHEET

Pages of this Rate Schedule listed below are effective as of the date shown at the bottom of the respective page(s). Original and revised pages as named below comprise all changes from the original Rate Schedule and are currently in effect as of the date on the bottom of this page.

SECTION 4 - SWITCHED ACCESS SERVICE**4.3 Billing of Access Minutes, (Cont'd.)****4.3.2 Identification and Rating of Toll VoIP-PSTN Traffic, (Cont'd.)****D. Calculation and Application of Percent-VoIP-PSTN-Usage Factor**

The Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under Section 4.3.2.C above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU (however determined – either based on call detail information or PIU) exchanged between the Company and the Customer, until July 13, 2012 and after June 30, 2014. From July 13, 2012 through June 30, 2014, the PVU will be applied to only the terminating intrastate access MOU. The PVU will be derived and applied as follows:

1. Except as otherwise provided in Section 4.3.2.D.3 below, the Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the whole number percentage of the total intrastate access MOU that the Customer exchanges with the Company in the State, that (a) is terminating access sent to the Company and that originates in IP format; or (b) is originating access received from the Company and terminates in IP format until July 13, 2012 and after June 30, 2014. From July 13, 2012 through June 30, 2014, the PVU will represent only the terminating intrastate access MOU. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. (T)
2. Except as otherwise provided in Section 4.3.2.D.3 below, the Company will, likewise, calculate a factor (the "PVU-B") representing the percentage of the Company's total intrastate access MOU in the State that the Company originates or terminates in IP format until July 13, 2012 and after June 30, 2014. From July 13, 2012 through June 30, 2014, the PVU will represent only the terminating intrastate access MOU. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. (T)

SECTION 4 - SWITCHED ACCESS SERVICE

4.3 Billing of Access Minutes, (Cont'd.)

4.3.2 Identification and Rating of Toll VoIP-PSTN Traffic, (Cont'd.)

D. Calculation and Application of Percent-VoIP-PSTN-Usage Factor, (cont'd.)

3. The Company will use the PVU-A and PVU-B factors to calculate an effective PVU factor that represents the percentage of total intrastate access MOU exchanged between the Company and the Customer that is originated and/or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends until July 13, 2012 and after June 30, 2014. From July 13, 2012 through June 30, 2014, the PVU will represent only the relevant terminating intrastate access MOU. The effective PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).

Note: PVU factors will not be provided or collected by the Company for the traffic period from July 1, 2013 through June 30, 2014. This represents the period during which the Company's terminating intrastate rate is equal to its terminating interstate rate and PVU is not applied to originating traffic. Traffic on or after July 1, 2014 will be subject to the most recently available PVU factor on file with the Company for application of charges to originating access traffic. PVU updates must be received at least 30 days prior to July 1, 2014 if a new factor will apply. (N)

SECTION 4 - SWITCHED ACCESS SERVICE

4.3 Billing of Access Minutes, (Cont'd.)

4.3.2 Identification and Rating of Toll VoIP-PSTN Traffic, (Cont'd.)

D. Calculation and Application of Percent-VoIP-PSTN-Usage Factor, (cont'd.)

4. The Company will apply the effective PVU factor to the applicable intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs. (M)

Example 1: The PVU-A is 40% and the PVU-B is 10%. The effective PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. The Company will bill 46% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff.

Example 2: The PVU-A is 0% and the PVU-B is 10%. The effective PVU factor is $0\% + (10\% \times 100\%) = 10\%$. The Company will bill 10% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the effective PVU is 100%. The Company will bill 100% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff. (M)

Material now found on this page was previously found on Original Page 19.4.

SECTION 4 - SWITCHED ACCESS SERVICE

4.3 Billing of Access Minutes, (Cont'd.)

4.3.2 Identification and Rating of Toll VoIP-PSTN Traffic, (Cont'd.)

D. Calculation and Application of Percent-VoIP-PSTN-Usage Factor, (cont'd.)

5. If the Customer does not furnish the Company with a PVU-A pursuant to 4.3.2(D).1 preceding, the Company will utilize an effective PVU equal to the PVU-B.
6. The Customer shall not modify their reported PIU factor to account for Toll VoIP-PSTN Traffic.

E. [Reserved for future use]

(D)

(D)

F. PVU Factor Updates

The Customer may update the PVU-A factor or the Company may update the PVU-B quarterly using the method set forth in subsection 4.3.2.D.1 or 2.9.3.D.2, respectively, above. If the Customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-A factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVU-A to calculate a revised PVU. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.
